Spanish

Interests

Horse Riding

Competed in several National and
International shows in France

Coding

I participated in a HackerRank
coding competition involving my
whole promotion (400 students). I
was qualified to the final round
and ranked 17 at the end.

Jad Sbai

I am a multi-lingual Full-Stack Software Engineer whose mission is to empower small businesses by offering bespoke technical solutions that leverage the power of modern cloud computing and AI, enabling them to thrive in the digital world.

Work experience

Software Engineer Intern

Since July 2022 **Publicis Sapient** London, UK

- Design, develop and unit test applications in accordance with established standards
- Package and support the deployment of releases
- Analyze and resolve technical and application problems
- Adhere to high-quality development principles while delivering solutions on-time and on-budget
- Collaborate with experience designers, strategists, client partners and clients on the product
- Prepare reports, manuals and other documentation on the status, operation, and maintenance of software
- **Tech Stack: Spring, React, Kubernetes, AWS**

Chief Executive Officer

Since June 2022 **Schmoffee** London, UK

- In charge of leading a pilot program in London, set to launch in September.
- Oversee the infrastructure of the product and manage the company's technological roadmap.
- Analyze target markets to create a viable business model/strategy.
- Act as a liaison between the customers and the business.
- Plan the MVP of the application.

Lead Software Engineer (Full-Stack)

Since May 2022 **Green Enterprise** London, UK

- Building Opus, a cross-platform (web and mobile) AI driven talent-matching application.
- **Tech Stack: Nest.js, Node.js, React, MongoDB, Jest**

Undergraduate Teaching Assistant

Since January 2022 **King's College London** London, UK

Conducted bi-weekly 2-hour tutorials with 20 students per session in the "Software Engineering" module; covering the main components of the Software Development Process and techniques to enhance its quality.
